The Applicant shall address the following standards for site plan review when submitting their application:

Section 13.4 Site Plan Requirements

D. Criteria for Review

In reviewing the application and site plan and approving, disapproving or modifying the same, the Planning Commission shall be governed by the requirements of Act 10 which provides for approval of a discretionary decision if all approval standards are met, and in accordance with the following standards:

1. That there is a proper relationship between the existing streets and highways within the vicinity and proposed deceleration lanes, service drives, entrance and exit driveways and parking areas to assure the safety and convenience of pedestrian and vehicular traffic, and that the proposed streets and access plan conforms to any street or access plan adopted by the Townships or the County Road Commission.
2. That the buildings, structures and entryways thereto proposed to be located upon the premises are so situated and designed as to minimize adverse effects therefrom upon owner and occupants of adjacent properties and the neighborhood.
3. That as many natural features of the landscape shall be retained as possible, particularly, where they furnish a barrier or buffer between the project and adjoining properties used for dissimilar purposes and where they assist in preserving the general appearance of the neighborhood or help control erosion or the discharge of storm waters.
4. That any adverse effects of the proposed development and activities proceeding here from upon adjoining residents or owners shall be minimized by appropriate screening, fencing or landscaping.
5. That all provisions of this Ordinance are complied with unless an appropriate variance therefrom has been granted by the Zoning Board of Appeals.
6. That all buildings and structures are accessible to emergency vehicles.
7. That the plan as approved is consistent:
 - a. To encourage the use of lands in accordance with their character and adaptability.
 - b. To avoid the overcrowding of population.

- c. To lessen congestion on the public roads and streets to reduce hazards to life and property.
- d. To facilitate adequate provisions for a system of transportation, sewage disposal, safe and adequate water supply, education, recreation and other public requirements.
- e. To conserve the expenditure of funds for public improvements and services to conform with the most advantageous uses of land, resources and properties.
- f. To preserve property values and natural resources.
- g. To give reasonable consideration to the character of a particular area, its peculiar suitability for particular uses and the general and appropriate trend and character of land, building and population development.

8. That a plan for erosion controls and storm water discharge has been approved by appropriate public officials.
