Excused Trustee Poulisse

Public Comment - none

Purpose of this meeting: A work session of the Inland Township Board to discuss plans for the property on corner of U.S. 31/ Lake Ann Road

Have not received the blown-up version of the survey. Paul will call on it.

It was reported that in 2 years when the MDOT begins work on U.S. 31 it will be putting in curb cuts and has offered to put one in at the Lake Ann

An RFP needs to be written to send to firms stating what we want and they are on the understanding that this is a 5,6 + years plan.

Motion by Wilson that we allow Therese, Paul and Dayton to work on proposals, 2nd by Miller

Ayes – All Nays – None Excused – Poulisse Motion carried

We need to make sure we get someone who knows what a fire station needs.

Saving \$10-20,000 on the curb cut we can hire a firm. While waiting for a firm to do the drawings we can decide on what goes inside – offices, sleeping area for fire department.

Resident trooper is coming back. When we do the newsletter, we should put that in there regarding police patrol. Focus should be on the building.

Wilson stated that next year's budget should cover a line item for per diems.

Trees need to go.

Public Comment - None

Any Other Business to come before the board

Supervisor Beechraft reported that the A/C unit at Bendon has had some issues but they are working on.

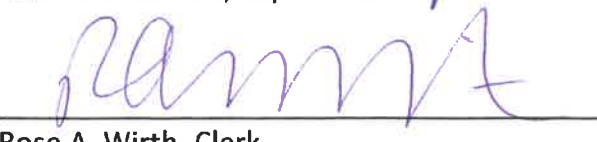

Adjourn

Motion by Wilson to adjourn, 2nd by Miller
